DETAILED ACTION

This Office Action is in response to the amendment filed September 29, 2008, amending claims 1, 18-19, 21, 38-41, 45, 46, and 48. Currently, claims 1-48 are pending.

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-20 and 41-48 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Regarding claims 1-20 and 47-48, claims 1-20 and 47-48 are directed to methods not eligible as a process under 35 U.S.C. 101. A method or process is statutory under 35 U.S.C. 101 if the method or process either (a) is tied to another statutory class of invention or (b) transforms subject matter to another state or thing. The method steps of claims 1-20 and 47-48 fail to specifically recite limitations directed to the process being tied to another class of invention (for example, specifically reciting limitations for an apparatus that accomplishes the method steps) or limitations directed to identifying statutory subject matter that is transformed to another state or thing.

Regarding claims 41-46, claims 41-46 are rejected under 35 USC 101 as being directed to non-statutory subject matter. The specification only discloses software embodiments of the invention. The apparatus recites various means for limitations, which, as disclosed in the specification are implemented only as a computer program. A computer program does not fall within one of the statutory classes of invention under 35 USC 101, and thus claims 41-46 are directed to non-statutory subject matter.

Art Unit: 2626

Allowable Subject Matter

2. Claims 21-40 are allowed.

Response to Arguments

3. Applicant's arguments with respect to claims 1-20 and 41-48 have been considered but are moot in view of the new ground(s) of rejection.
